A Terrible Case of Salt Rheum SACRAMENTO, Cal., August 1, 1882.
Mr. J. P. Sarsfield—Dear Sir: I have been troubled more or less for many years with salt rheum, and last fall I had a terrible attack of the disease on many thands, arms, feet and legs, and was sorreging as last fall I had a terrible attack of the disease on my hands, arms, feet and legs, and was spreading ail over my body. I suffered the most intense pain for months. I tried many remedies, but none appeared to give me any relief until I used your Chronic Ulcer Salve. I received immediate relief, and after using the salve for about two months, found myself cured of the direful disease. And I take great pleasure in recommending the Chronic Ulcer Salve to all persons troubled with that p sinful disease.

Varicose Veins Cured. SACRAMENTO, Cal., April 7, 1882.

Mr. J. P. Sarsfield—Dear Sir: In 1870 I was troubled with varicose veins, which became ruptured and broke out on my shin bone, and for two years I suffered great pain and was unable to attend to any business. I was treated by several physicians in this city and elsewhere without receiving any relief; but accidentally hearing of some of the wonderful cures produced with your medicine and Ulcur Salve, I determined to try it, and in about seven weeks I was permanently cured, and have not had the least trouble since; and it gives me great pleasure to give you this testimonial. That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they

grow worse. The only sure remedy yet found is Brown's Iron BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part

of the system repairs the wasted tissues, drives out disease and gives health and strength. This is why Brown's

TRON BITTERS will cure kidney and liver diseases. consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers. &c. Mr. Simon Blanchard, a well-

known citizen of Hayesville, Meade county, Kentucky, says: "My wife had been sick for a long time, and her constitution was all broken down and she was unable to work. She was advised to use Brown's Iron Bitters, and found it to work like a charm. We would not now be withnut it for any consideration, as we consider it the best tonic in the world."

the jurors the following verdict was prepared and signed:

Sacramento, April 24, 1883.

We, the undersigned jurors, drawn by the Coroner of Sacramento county to inquire into the identity and cause of death of the persons whose bodies were removed on April 20, 1883, from a certain wrecked building located at 507 K street, Sacramento city, California, find the names, ages and places of nativity as nearly as we have been able to ascertain, to be as follows: Thomas P. Brelsford, a native of Philadelphia, aged 55 years; John Charles Rademacher, a native of Prussia, aged 59 years, 2 months and 7 days; Lawrence Miller, a native of Ohio, aged 24 years; Henry Hopfe, a native of Germany, aged 43 years and 11 months; John Hitzenberger, a native of Michigan, aged 24 years and 7 days. We find that they and each of them came to their death by injuries received and wounds and brusses inflicted by the falling of the west wall of the upper story of the Grand Army Hall building, situated at Nos. 509, 511 and 513 K street, Sacramento City, Cal., at about 15 mi utes after 12 o'clock, midnight, of the morning of the 20th of April, 1883; that said wall fell to the westward, and upon the roof of the one-story building situated at 507 K street, known as "Saenger Halle" Saloon, breaking down the roof and the walls thereof, and its fall resulted in the death of the persons named. We are unable to de termine from the evidence the cause of the falling of the wall mentioned, but in our opinion it resulted from explosive forces of some kind to us unknown, caused by the fire in the lower story of the building that night, but not of such a character as to have caused the falling of the wall had it been properly constructed. We further find that the building known as Grand Army Hall is not a safe building, nor ever was, for the purpose for which it was intended to be used, and for which it has hear wand advanced the theory that steam generated by the fire below had caused an expansion in the hall; but it seems very improbable that this could have been the cause of the wall falling, for the room was not close, and there were some broken windows in the room through which any small quantity of steam could have escaped. Another wit-ness gave a theory of an explosion of gases generated from below by the comtion of grease and other things in the bustion of grease and other things in the kitchen. Theories are all the rage, and each individual has one of his own, but no one of them is tenable. It has been suggested that when the debris is removed from the saloon building that evidence will be found that dynamite was under the foundation. With all the theories that have been advanced there appears to be no reason for the wall falling excepting that it was an unsafe wall, and should not have been permitted to have ever been erected. A synopsis of the evidence is given.

F. F. Tebbets sworn: Was on J street, in what is known as the Heilbron building, when the fire of Friday morning commenced; heard the fire alarm, went out on the awning

and saw the fire; all at once I saw a sheet o We further find that the building known as Grand Army Hall is not a safe building, nor ever was, for the purpose for which it was intended to be used, and for which it has been used.

We find that the west wall of the upper story of the Grand Army Hall building was so defectively constructed as to be entirely insecure, especially in a building intended to be used for a public hall, in which large numbers of persons congregated; that it was too thin; that the appearance of the debris indicated that it was constructed with unwetted bricks, to which the mortar would not adhere; that the wall was not anchored as it should have been; that while we are not able to determine what caused the wall to fall, we are estisfied from the evidence that would have injuriously affected the wall had it been constructed with any regard to security.

We further find that the northjand south walls of the Grand Army Hall building are only — inches thick from the ground up, and are unsafe and enfire shoot into the air at least twenty feet, and said: "That was an explosion." It was my opinion that it was an explosion; it was a dead report, and may have been the falling of the bricks on the roof; did not see the wall fall; there was a double report; the wall fall; there was a double report; they were in almost the same instant; they both sounded alike.

George Uhl, of San Francisco, sworn: Came up on the 19th on the train; took a room at the Fifth Avenue House, on Fifth street, and in the third story; I heard the alarm of fire, and looking out saw a fire in the kitchen of the Campi Restaurant; some men soon came with a Babcock extinguisher; in about ten minutes the stream of the department was put on to the fire: it was

We further find that the Sienger Halle building

We further find that the Saenger Halle building was well constructed, and that it was in all respects a safe building by itself.

We are of opinion that there are many brick buildings in this city that should be inspected by competent experts, with a view of determining as to their safety under the contingencies of fire, etc., which are momentarily liable to happen; and we recommend that all brick buildings hereafter constructed in the city he inspected by competent experts of the competent recommend that all brick buttaings hereafter con-tructed in the city be inspected by competent ex-erts while in course of construction, and that the wners be required to in all respects construct such uldings with a view to security and permanency. Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequaled preparation for restor-ing, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxurious quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its vouthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of be-coming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S

Emperor William, of Germany, celebrated his 86th birthday, March 3d, by laying the corner-stone of the new Imperial Palace at Berlin.

Charles Langley & Co., San Francisco—Dear Sir: I take great pleasure of informing you of the most gratifying results of the use of CARBOLINE in my own case. For three years the top of my head has been completely bald and smooth, and I had quite the property of the pair. When a woman wishes to hide something where nobody will ever be able to find it, she puts it in the pocket of her dress.—
[Philadelphia Bulletin.

The man who worships the fortune he has made is no more intelligent than the heathen who prays to the little wooden god he has whittled into shape.

The prohibitionists of Missouri will been completely bald and smooth, and I had quite given up any hope of restoring the hair. Four weeks ago I noticed the advertisement of CARBO-LINE, and, on the recommendation of a friend, I concluded to try a bottle, without any great hope of good results, however. I have now used it less than a month, and to my most agreeable astonishment, my head is completely covered with a fine, short, heathy growth of hair, which has every appearance of continued growth; and I confidently believe it will restore it as completely as ever it was in my

I take great pleasure in offering you this testimo nial, and you have my permission to publish the same. Yours truly, CHAS. E. WHITE, Davisue, Cal. Subscribed and swern to before me.

JAMES D. KING, Notary Public.

The latest advertising swindle is that of a man who advertised a sewing machine for 25 cents in stamps. He found numerous dupes, who, in return for their stamps, received a cambric needle.

It is an old and true saying that opportunity has hair in front, but it is bald behind. If you eatch her by the forelock you can hold her, but if you wait till she gets by your hand slips and she is gone.

Jos. E. Pond, Jr., attorney-at-law, North Attleboro, Mass., says: "For more than twenty years a protion of my head has been as smooth and free from hair as a billiard ball; but some eight weeks ago I was induced to try your CARBOLINE, and theffects have been simply wonderful. Where no hair has been seen for years, there now appears a thick growth. I expect the growth to be slow, but it is cut. You may use the above testimonial if you choose, and may refer to me for its truth."

ALFRED PHILLIPS, druggist, of Gloversville, N. H., says: "My wife has tried CARBOLINE, and she has now a coating of hair over the top of her head an inch long, where her head has been entirely baid for years."
